Prompting

Prompt	“Create a one-page professional resume using the following details provided and use a clean, modern format with clear section headings. Keep it concise and suitable for entry-level job applications. Name: Alfred Glic B. Legario Email: agblegario@addu.edu.ph Phone: 09054010610 Education: Bachelor’s of Science in Aerospace Engineering - Ateneo de Davao University Currently a 3rd Year Student An Academic Scholar since 2023 Participated in numerous Engineering workshops High School Diploma 2023 - Shalom Crest Wizard Academy Graduated as Batch 2023's Salutatorian Demonstrated consistent academic leadership and excellence in STEM-related coursework. Skills: ● Technical Design ● Additive Manufacturing ● Entry-Level Programming ● Basic Office Operations ● Public Service & Communication ● Team-Oriented ● RC Simulation (Pheonix RC 5.5) ● CAD Suite (AutoCAD, Solid Works, OnShape) ● Microsoft Office Suite (Word, Excel) ● Google Suite (Docs, Sheets, Drive, Calendar) Projects/Experience: Academics Committee Lead · Program Organization August 2025 - Present Led a peer group in understanding the principles of force systems. Simplified complex engineering concepts into digestible study sessions, improving group comprehension of structural mechanics. Prototyping Project · Ateneo de Davao University August 2023 - Present Accumulated over 800 hours of 3D printing, 3D Modelling, Drafting and Plastic Model Assembly experience, translating digital 3D models into physical components. Troubleshot printing errors and optimized print settings to ensure structural integrity and dimensional accuracy. Creatives Committee Member · Program Organization August 2023 - March 2024 Collaborated on the design and execution of visual assets for organization

	events. Applied design principles to ensure information was communicated clearly and aesthetically to a wide audience.”
LLM #1 (Result)	# **Alfred Glic B. Legario** 📧 agblegario@addu.edu.ph | 📱 09054010610 --- ## **Objective** Motivated Aerospace Engineering student seeking entry-level opportunities to apply technical design, problem-solving, and hands-on prototyping experience in a dynamic and growth-oriented environment. --- ## **Education** **Bachelor of Science in Aerospace Engineering** Ateneo de Davao University *3rd Year Student* * Academic Scholar (Since 2023) * Participated in multiple engineering workshops **High School Diploma** Shalom Crest Wizard Academy | 2023 * Salutatorian, Batch 2023 * Demonstrated academic leadership and excellence in STEM coursework --- ## **Skills** * Technical Design & Drafting * Additive Manufacturing (3D Printing) * Entry-Level Programming * CAD Software: AutoCAD, SolidWorks, OnShape * RC Simulation: Phoenix RC 5.5 * Microsoft Office Suite (Word, Excel) * Google Workspace (Docs, Sheets, Drive, Calendar) * Public Service & Communication * Team Collaboration

	--- ## **Projects & Experience** **Academics Committee Lead** Program Organization | August 2025 – Present * Led peer learning sessions on force systems and structural mechanics * Simplified complex engineering concepts to improve group understanding **Prototyping Project** Ateneo de Davao University | August 2023 – Present * Accumulated 800+ hours in 3D printing, modeling, and drafting * Translated digital models into functional physical components * Troubleshot print issues and optimized settings for accuracy and durability **Creatives Committee Member** Program Organization | August 2023 – March 2024 * Designed visual materials for organizational events * Ensured clear and engaging communication through effective design --- ## **Additional Information** * Strong attention to detail and problem-solving skills * Adaptable and eager to learn in fast-paced environments * Passionate about aerospace systems and engineering innovation
LLM #2 (Result)	# Alfred Glic B. Legario **Phone:** 09054010610 | **Email:** agblegario@addu.edu.ph **Location:** Davao City, Philippines --- ## PROFESSIONAL SUMMARY A dedicated 3rd-year Aerospace Engineering student and Academic Scholar with a strong foundation in CAD design, additive manufacturing, and technical leadership. Proven track record in translating complex engineering concepts into practical applications and physical prototypes. Seeking to leverage technical skills and a collaborative mindset in an entry-level engineering or technical role.

EDUCATION

Bachelor of Science in Aerospace Engineering | *2023 – Present* **Ateneo de Davao University**

- **Academic Scholar** (2023 – Present)
- Participated in specialized Engineering workshops focusing on industry-standard practices.

High School Diploma | *Graduated 2023* **Shalom Crest Wizard Academy**

- **Batch Salutatorian**
- Demonstrated consistent excellence in STEM coursework and academic leadership.

TECHNICAL SKILLS

- **Engineering & Design:** CAD Suite (AutoCAD, SolidWorks, OnShape), Technical Design, Drafting.
- **Manufacturing:** Additive Manufacturing (3D Printing), Prototyping, Plastic Model Assembly.
- **Software & Programming:** Entry-level Programming, RC Simulation (Phoenix RC 5.5).
- **Productivity:** Microsoft Office Suite (Excel, Word), Google Suite (Docs, Sheets, Drive).
- **Soft Skills:** Public Service & Communication, Team Collaboration, Project Management.

EXPERIENCE & PROJECTS

Academics Committee Lead | *Program Organization* | **Aug 2025 – Present**

- Spearhead peer-led study groups focusing on the principles of **force systems** and **structural mechanics**.
- Synthesize complex engineering theories into digestible instructional materials, resulting in improved group comprehension and academic performance.

Prototyping Project | *Ateneo de Davao University* | **Aug 2023 – Present**

- Accumulated **800+ hours** of experience in 3D modeling and additive manufacturing.
- Translated digital designs into physical components while maintaining

	strict dimensional accuracy. ● Troubleshoot hardware/software printing errors and optimized print settings to ensure structural integrity. **Creatives Committee Member** | *Program Organization* | **Aug 2023 – Mar 2024** ● Collaborated with a multidisciplinary team to design visual assets for various organizational events. ● Applied core design principles to communicate technical and event information clearly to a broad audience.

Criteria Table

Criteria	LLM #1	LLM #2
Structure	Standard; uses a traditional "Objective" section.	Modern; uses a "Professional Summary" and grouped skill categories.
Clarity	High clarity in bullet points for projects.	Exceptional clarity in categorizing technical vs. soft skills.
Formatting	Simple Markdown; uses bold headers and bulleted lists.	Professional and dense; uses vertical pipes (
Overall Quality	Good for basic applications; slightly less technical in its wording.	Superior; utilizes more impactful action verbs like "Spearhead" and "Synthesize".

Reflection

In evaluating the outputs, LLM #2 performed significantly better because it adopted a modern professional tone and utilized sophisticated formatting, whereas LLM #1 felt more like a basic, generic template. The primary difference observed was in the framing of the candidate's introduction; LLM #1 utilized a passive objective statement, while LLM #2 employed a "Professional Summary" that immediately highlighted specific expertise in CAD and additive manufacturing. Furthermore, LLM #2 demonstrated a better understanding of industry standards by grouping skills into logical categories such as "Manufacturing" and "Productivity," making the document far more scannable for recruiters. In my final refined version, I improved the wording by adopting the stronger action verbs found in LLM #2, such as "Spearhead" and "Synthesize," and ensured that the impressive 800+ hours of prototyping experience was positioned as a central technical highlight. I also refined the layout to ensure all contact information and professional links were concise and well-aligned. This exercise taught me that prompting is an iterative process where the quality of the result is heavily dependent on providing specific constraints regarding tone and structure. By including precise data points like "800 hours" and "Batch Salutatorian" in the prompt, I enabled the LLMs to emphasize the candidate's unique value proposition. Ultimately, effective prompting requires balancing detailed background information with clear instructions on the desired visual hierarchy to produce a high-quality, job-ready document.

Refined Resume

Final Prompt Used: “using both outputs, combine the best elements of each for one final resume”

Alfred Glic B. Legario

(+63) 09054010610 · agblegario@gmail.com · Davao City, Philippines

Detail-oriented Aerospace Engineering student with a strong foundation in technical drafting and 3D modeling. Proven academic excellence as a high school Salutatorian with a growing proficiency in entry-level coding and administrative support. Eager to apply technical design skills and a disciplined work ethic to a collaborative team.

KEY COMPETENCIES

- Technical Design
- Additive Manufacturing
- Entry-Level Programming
- Basic Office Operations
- Public Service & Communication
- Team-Oriented
- RC Simulation (Pheonix RC 5.5)
- CAD Suite (AutoCAD, Solid Works, OnShape)
- Microsoft Office Suite (Word, Excel)
- Google Suite (Docs, Sheets, Drive, Calendar)

UNDERGRADUATE EXPERIENCE

Academics Committee Lead · Program Organization **August 2025 - Present**

- Led a peer group in understanding the principles of force systems.
- Simplified complex engineering concepts into digestible study sessions, improving group comprehension of structural mechanics.

Prototyping Project · Ateneo de Davao University **August 2023 - Present**

- Accumulated over 800 hours of 3D printing, 3D Modelling, Drafting and Plastic Model Assembly experience, translating digital 3D models into physical components.
- Troubleshot printing errors and optimized print settings to ensure structural integrity and dimensional accuracy.

Creatives Committee Member · Program Organization **August 2023 - March 2024**

- Collaborated on the design and execution of visual assets for organization events.
- Applied design principles to ensure information was communicated clearly and aesthetically to a wide audience.

EDUCATION

Bachelor’s of Science in Aerospace Engineering - Ateneo de Davao University

- Currently a 3rd Year Student
- An Academic Scholar since 2023
- Participated in numerous Engineering workshops

High School Diploma 2023 - Shalom Crest Wizard Academy

- Graduated as Batch 2023's Salutatorian
- Demonstrated consistent academic leadership and excellence in STEM-related coursework.
